Figure 1: Schematic representation of the experimental design. The figure shows two parallel timelines for 'Control' and 'Patient' groups. The Control group timeline includes 'Baseline', 'Training', 'Transfer', and 'Test' phases. The Patient group timeline includes 'Baseline', 'Training', 'Transfer', and 'Test' phases, with a 'Post-Test' phase following the 'Test' phase. The 'Training' phase is highlighted in red for both groups. The 'Transfer' phase is highlighted in blue for both groups. The 'Test' phase is highlighted in green for both groups. The 'Post-Test' phase is highlighted in orange for the Patient group.
